## **COMPANY DESCRIPTION:**

The Nemesis is the perfect board to help your grom take their riding to that next level. The ultra smooth and forgiving ride of this board will kick start their love of wake for years to come... The future looks bright! The Nemesis has a mellow 3-stage rocker; a continuous curve with extra kick in the tip for smooth edging and higher pop off the wake comes standard with this rocker template. Rounded diamond tip tail; easy catch-free riding with extra tracking. Canted molded fins; centered fins are easier to get on edge and will help the board hold a better edge while riding toeside, heelside, or even switch.

The all new Nemesis Kids binding provides a stable platform for the young rider to progress on. Easy to use and ultra comfortable, the Nemesis Kids binding allows the next generation of kids to spend more time shredding and less time fussing about their bindings on the swim platform.
